

General

Darwin City Council Overview

Our Mission

The primary mission of the Darwin City Council is to promote and develop Darwin as a dynamic, different and diverse Capital City.

- Dynamic - a progressive economy providing opportunity for active participation
- Different - a contrasting climate creating a distinct tropical outdoor lifestyle
- Diverse - a cosmopolitan tolerant community

Council's Charter

The Darwin City Council is charged with the peace, order and good governance of the Darwin Municipality, and has the control and management of that good government.

Council's Principles

Service

Council will strive to achieve excellence, quality and pride of service to the community using common sense, compassion and courtesy.

Responsiveness

Council will be responsive to the needs of the community.

Involvement

Council will provide avenues of participation for, and be accessible to the community.

Responsibility

Council will act responsibly and with integrity in the interests of the community.

Equity

Council will treat the community in an equitable manner.

Advocacy

Council will make representations for, and on behalf of, the community as and when the need arises.

Aboriginal Reconciliation

Council will demonstrate commitment to the Aboriginal reconciliation process and to advancing the relationship between Aboriginal people and the wider community.

Our Logo

Council's logo was created to signal the start of the new century and the progress of the City of Darwin. Chosen for its simplicity, this dragonfly logo symbolises in many ways the character of Darwin.

The appearance of the dragonfly in Darwin skies has always been recognised as a sign that change is in the air.
