 - Manual waste collection service (developments with 4 or more units)

Signed: **Date:**

For your information:

| Kerbside collection service | Manual collection service |
|--|--|
| <p><i>Houses & developments with 3 or less units receive kerbside collection services where 1 set of 240 litre wheelie bins is delivered (1 red lidded bin for general waste and 1 yellow lidded bin for recycling).The bins need to be placed at the kerbside for emptying by Council's contractor Cleanaway. The red lidded bin is emptied once per week and the yellow lidded bin is emptied once per fortnight. Council rates for this kerbside service are \$187 per year and will be charged automatically in addition to the current rates.</i></p> | <p><i>Developments with 4 or more units receive manual collection services where Cleanaway staff will collect the bins from the common compound and the bins are shared between the residents. These bins should not be placed at the kerbside. Because of space restrictions there are less bins per resident however the bins are emptied more often and the bins are disinfected once per month by Cleanaway staff. The red lidded bins are emptied twice per week and the yellow lidded bins are emptied once per week. Council rates for this manual service are \$158 per year and will be charged automatically in addition to the current rates.</i></p> |
| <p>Collection service for larger unit complex Is the same as a manual service describes above but instead of having 240lts bins, Council can offer 3m skip bins or 1100lts bins which are equivalent to 4x240lts bins. Council rates for these bins are \$158 for the 3m skip bin and \$215 for the 1100lts bin per year and will be charged automatically in addition to the current rates.</p> | |
